My Dearest Child.

I have received your Letter which considering the late Hour when it reach'd me I would not answer immediately fearing that it might interrupt your Rest. I enter most completely into every feeling of yours, which are truly Amiable, & what do you the greatest Honor. All I can take upon myself to say at the present moment is that every request of yours will always be attended to most readily & affectionately by me, as far as is consistent with what is due to propriety,
