Dr brother

not having it in my power to speak to you to day, I have ventured to write, the Key that you was so good to give to Lady Howe, is brock by the girls, who are frind out of their witts, for their Mother, as she had given them such a strong charge not to loose nor brick this favourite. Hey, now how to ask for an other they do not know, this has been the secret I wanted to disclose, I hope you wont be angry with me for receiving it, as its enow in judgement, & not intended as it must alway be when I offend you. I am  
Your most affectionate  
servant & obedt servant August
