My dear Mr. Bostwick. I have been

impatient one, but in length  
spends at times & at others as  
our course rather tears — He would  
a tolerable alumnus must to be  
well & strong & I am likely  
to elude — Yours

My dear Brother

Nothing has happened  
a very quiet composed day  
& not up later than usual  
but when told to go to bed  
I immediately with the  
greatest good humour

We must this morning & see  
the Boston. Sophia felt obliged  
will for her & ventured, but  
was so fatigued & so ill that  
she was obliged to go to bed  
after dinner completely over-  
come with the length of the  
drive & the hurry and the  
whole morning suffering  
throughout & will be suffering  
of consequence, but the

fairly said she must make  
no more such trials as he  
can not answer for the  
consequences in her delicate  
state, she is my mother  
said at her own want of  
strength & quite out of spirits  
& being so unequal to the  
smallest exertions —

Yours

Marcy
